COUNTRY USSR (Moldavian SSR)

SUBJECT Harbor Installations in Izmail on the Danube

25X1C

1. Izmail (45-21N, 28-46E) is the transshipment harbor for bauxite from Komorn (47-45N, 18-10E). The bauxite is then shipped from Izmail to other parts of the USSR by rail. Engine parts from Austria, Hungary, and Czechoslovakia and glass from Austria are also transshipped to the USSR through here. Pyrites for Hungary and Czechoslovakia are the principal goods shipped to upriver places.
2. The harbor is about 2 km from the town of Izmail. A grain silo and eight heavy slewing cranes are available. About 600 dockers and transport workers work in three shifts.
3. A Soviet border police unit of about 120 men was stationed near the harbor. The soldiers wore a green ribbon around their caps and yellow-bordered green epaulets.
